DETAILED ACTION

Response to Amendment

Applicant is thanked for the Amendment and detailed response to the Office Action. Examiner has considered Applicant's response; a new Office Action follows.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 82 and 83 are rejected under 35 U.S.C. 103(a) as being unpatentable over VansEvers.

Regarding Claim 82 (applied in a similar manner to previous claims 59 and 60), Applicant argues that VansEvers does not explicitly disclose the waiting of at least ten days between adjustments. However, it is inherent that in any device such as VansEvers or any adjustable acoustic device or instrument made of wood, that due to e.g. temperature, strain, the tonal quality of such a apparatus would change over time, and any readjustment after a given time period thereof would be obvious to one of ordinary skill in the art.

Claims 62-81 are allowed.
